To Whom It May Concern:

This letter is my personal recommendation for Dr. Derrick Campbell. I worked with Dr. Campbell when he was in the position of math supervisor for Willingboro School District. I found him to be consistently pleasant, tackling all assignments with dedication and a smile.

Besides being a joy to work with, Dr. Campbell is a take charge individual who presents creative ideas and communicates the benefits of those ideas. He successfully developed and integrated technology curriculum and mathematics with other disciplines into the school curriculum. Dr. Campbell's dedication and determination resulted in increased student appreciation for education.

While Dr. Campbell was an asset to each school's math and technology departments within the district, he was also extraordinarily helpful in assisting staff in the areas of curriculum and school culture. In addition to working with the entire district staff on test preparation, Dr. Campbell assumed a leadership role in motivating other employees and students.

I highly recommend Dr. Campbell for this position. He is a team player and would make a great addition to your organization.

If you have any questions or concerns regarding Dr. Campbell, please do not hesitate to contact me at the address and telephone number listed above.

Educationally,

Dr. Wanda Carter, Ed.D.
Superintendent/Principal
