To Whom It May Concern:

It is a pleasure to write a letter of reference for Dr. Derrick Campbell. Derrick and I worked together as assistant principals for two years. The first time I met Derrick, it became clear to me that he is a wise individual that listens to and cares about others. Although my years of educational experience outnumbered Derrick's, it was he who, on numerous occasions, provided me with excellent advice and counseling.

Derrick's actions show integrity and consistency. Those who work with Derrick are better for doing so. It was a pleasure working with Derrick. I am confident that Derrick will benefit the individuals of whatever organization he decides to work with.

Sincerely,

John J. Hourani
